

MARKING SCHEME
STRICTLY CONFIDENTIAL
(FOR INTERNAL AND RESTRICTED USE ONLY)
SENIOR SCHOOL CERTIFICATE EXAMINATION, 2025
ACCOUNTANCY (SUBJECT CODE—055)
(QUESTION PAPER CODE—67/2/2)

General Instructions:

- 1 You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully
- 2 **“Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its’ leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc. may invite action under various rules of the Board and IPC.”**
- 3 Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one’s own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. **However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them.**
- 4 The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
- 5 The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after deliberation and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators
- 6 Evaluators will mark(√) wherever answer is correct. For wrong answer CROSS ‘X’ be marked. Evaluators will not put right (✓) while evaluating which gives an impression that answer is correct and no marks are awarded. **This is most common mistake which evaluators are committing.**
- 7 If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly
- 8 If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly
- 9 If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note **“Extra Question”**.
- 10 No marks to be deducted for the cumulative effect of an error. It should be penalized only once.

- 11 A full scale of **80** marks as given in Question Paper has to be used. Please do not hesitate to award full marks if the answer deserves it.
- 12 Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines)
- 13 Ensure that you do not make the following common types of errors committed by the Examiner in the past:-
- Leaving answer or part thereof unassessed in an answer book.
 - Leaving answer or part thereof unassessed in an answer book.
 - Wrong totaling of marks awarded on an answer.
 - Wrong transfer of marks from the inside pages of the answer book to the title page.
 - Wrong question wise totaling on the title page.
 - Wrong totaling of marks of the two columns on the title page.
 - Wrong grand total.
 - Marks in words and figures not tallying/not same.
 - Wrong transfer of marks from the answer book to online award list.
 - Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.)
 - Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
- 14 While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) marks
- 15 Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
- 16 The Examiners should acquaint themselves with the guidelines given in the “**Guidelines for spot Evaluation**” before starting the actual evaluation.
- 17 Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
- 18 The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

67 /2 /2	MARKING SCHEME ACCOUNTANCY (055) EXPECTED ANSWERS / VALUE POINTS	Marks
	SECTION A	
1	Q. Aman, Boman and Chetan... Ans. (A) 1/10	1 mark
2	Q. Emily, Farida and Ans. (B) ₹35,000	1 mark
3	Q. Ajay Ltd. forfeited.... Ans. (B) ₹4	1 mark
4	Q. Offer of securities or invitation.... Ans. (C) Private placement of shares	1 mark

Working Note:

Calculation of Divya's capital

Capital of Bittu and Chintu after all adjustments for 6/7 share= ₹14,40,000 + ₹6,60,000
= ₹21,00,000

$$\begin{aligned}\text{Divya's proportionate capital for } 1/7 \text{ share} &= ₹21,00,000 \times 7/6 \times 1/7 \\ &= ₹3,50,000\end{aligned}$$

27	<p>Q. (a) Which of the following.....</p> <p>Ans. (B) Miscellaneous Expenditures</p> <p style="text-align: center;">OR</p> <p>Q. (b) Null value is the special.....</p> <p>Ans. (C) Absence of data items</p>	<p style="text-align: center;">1 mark</p> <p style="text-align: center;">OR</p> <p style="text-align: center;">1 mark</p>															
28	<p>Q. To see all available shape.....</p> <p>Ans. (D) More</p>	<p>1 mark</p>															
29	<p>Q. (a) A piece of information.....</p> <p>Ans. (C) legend</p> <p style="text-align: center;">OR</p> <p>Q. (b) Identify the type.....</p> <p>Ans. (D) Sequential codes</p>	<p style="text-align: center;">1 mark</p> <p style="text-align: center;">OR</p> <p style="text-align: center;">1 mark</p>															
30	<p>Q. The software of</p> <p>Ans. (A) Scalability</p>	<p>1 mark</p>															
31	<p>Q. Name the error which.....</p> <p>Ans. 1. Name of the Error is: Correct a #NAME? Error This error occurs when Excel doesn't recognize text in a formula.</p> <p>Solution: (Any two) (i) Click the Microsoft office button, click Excel option and then click the Add-ins category. (ii) Select Excel Add-ins in the manage list box and then click Go. (iii) In the Add-ins available list, select the Euro Currency Tools check box and then click Ok.</p>	<p>3 marks</p>															

32	<p>Q. State the advantages of</p> <p>Ans. Any three of the following:</p> <p>(i) Querying large amounts of data in user-friendly ways. Sub totalling and aggregating numeric data, summarizing data by categories and subcategories and creating custom calculations and formulas.</p> <p>(ii) Expanding and collapsing level of data to focus on results and providing from details to the summary of data for areas of interest.</p> <p>(iii) Moving rows to column or columns to rows (or pivoting) to see different summaries of the source data.</p> <p>(iv) Filtering, sorting, grouping and conditionally formatting the most useful and the interesting subset of data to enable us to focus on the information that we want.</p> <p>(v) Presenting concise, attractive and annotated online or printed reports.</p> <p>(vi) The use of a Pivot table report is to analyse related totals, when we have a long list of figures to sum and to compare several facts about each figure.</p>	<p>1 x 3</p> <p>=</p> <p>3 marks</p>
33	<p>Q. (a) What is data</p> <p>Ans. Presenting a data in a form that it becomes easier to read and understand information is called Data formatting.</p> <p>Formatting tools are:</p> <p>(i) Number formatting It includes adding percentages symbol (%) commas ('), decimal places (.) etc. data, time, specific values as well as some special formats to a spreadsheet.</p> <p>(ii) Special format category: Data (special numbers such as phone numbers, zip codes and social security numbers which require different format in a certain way) from the category option we select. Special and from corresponding drop-down box under the locale we select format special numbers. Appropriate to specific countries.</p> <p>(iii) Changing cell colours.</p> <p>(iv) Creating custom cell borders.</p> <p style="text-align: center;">OR</p> <p>Q. (b) Explain 'ROUND' function.....</p> <p>Ans.</p> <p>ROUND is the function to round off a number to specified number of digits the syntax of the function is ROUND (number, Num_digits) Where</p> <p>Number is the number to round (preferably fractional number) Num digits specifies the number of digits to round the Number.</p>	<p>1</p> <p>+</p> <p>(1 x 3)</p> <p>=</p> <p>4 marks</p> <p>OR</p> <p>1</p> <p>+</p>

	<p>There may be some different situations for Num_digits as follows:</p> <p>(a) If Num_digits is greater than 0 (Zero) then number is rounded to the specified number of decimal places.</p> <p>(b) If Num digits is 0, then number is rounded to the nearest digit.</p> <p>(c) If Num digits is less than 0 than number is rounded to the left of the decimal point.</p>	<p>1</p> <p>+</p> <p>2</p> <p>=</p> <p>4 marks</p>
34	<p>Q. State the steps in creating a pie chart.....</p> <p>Ans. Steps for creating a pie chart:</p> <p>(i) Enter the data in the worksheet and select the data from two (consecutive) columns only then select the chart type Pie from the ribbon.</p> <p>(ii) Under the Pie types select 3D Pie option then click the Plot area of Pie chart this displays the chart tools, adding the Design layout and format tabs.</p> <p>(iii) To the design tab select chart layout group and chart style group.</p> <p>(iv) On the format tab in the shape styles group click shape effects and then Bevel.</p> <p>(v) Click 3D option and then under Bevel click Top and Bottom Bevel options.</p> <p>(vi) In the Width and Height boxes for Top and Bottom Bevel options type the point size.</p> <p>(vii) Under the surface click Material and then click Material option. Then click close.</p> <p>(viii) On the format tab in the shape styles group & click shape effects and then click shadow. Under outer, inner or perspective click shadow option.</p> <p>(ix) To rotate the chart for a better perspective, select the plot area and then on the format tab in the current selection group click format selection.</p> <p>(x) Under Angle of first slice, drag the slider to the degree of rotation that you want then click close. again click chart area of the chart.</p> <p>(xi) On the format tab in the shape styles group click shape effects then click Bevel.</p> <p>(xii) Under Bevel select the option then select page layout click themes and use built into colour the presentation.</p>	<p>$\frac{1}{2} \times 12$</p> <p>=</p> <p>6 marks</p>
