### MARKING SCHEME

# STRICTLY CONFIDENTIAL (FOR INTERNAL AND RESTRICTED USE ONLY) SENIOR SCHOOL CERTIFICATE EXAMINATION, 2025 ACCOUNTANCY (SUBJECT CODE—055) (QUESTION PAPER CODE—67/5/3)

#### **General Instructions: -**

- 1 You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully
- 2 "Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC."
- 3 Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them.
- 4 The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
- 5 The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after deliberation and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators
- 6 Evaluators will mark( $\sqrt{}$ ) wherever answer is correct. For wrong answer CROSS 'X" be marked. Evaluators will not put right ( $\sqrt{}$ )while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.
- 7 If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly
- 8 If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly
- 9 If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".
- 10 No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
- 11 A full scale of <u>0-80</u> marks as given in Question Paper has to be used. Please do not hesitate to award

full marks if the answer deserves it.

- 12 Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines)
- 13 Ensure that you do not make the following common types of errors committed by the Examiner in the past:-
  - Leaving answer or part thereof unassessed in an answer book.
  - Leaving answer or part thereof unassessed in an answer book.
  - Wrong totalling of marks awarded on an answer.
  - Wrong transfer of marks from the inside pages of the answer book to the title page.
  - Wrong question wise totalling on the title page.
  - Wrong totalling of marks of the two columns on the title page.
  - Wrong grand total.
  - Marks in words and figures not tallying/not same.
  - Wrong transfer of marks from the answer book to online award list.
  - Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.)
  - Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
- 14 While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) marks
- 15 Any un assessed portion, non-carrying over of marks to the title page, or totalling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
- 16 The Examiners should acquaint themselves with the guidelines given in the "Guidelines for spot Evaluation" before starting the actual evaluation.
- 17 Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
- 18 The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

|    | Ans. (A) Batch Processing   |                |
| 30 | Q. A cell reference that either   | 1 mark         |
|    | Ans. (D) Absolute cell reference  |                |
| 31 | Q. Explain the ways in which  |                |
|    | <b>Ans.</b> <u>Password security</u> controls the access to the data in which only the authorized person can access the data. Any user who does not know the password cannot retrieve information from the system.  |                |
|    | <u>Data audit</u> feature of accounting software provides the user with administrator rights in order to keep track of unauthorized access to the database. It audits for the correctness of entries. Once entries are audited with correctness and necessary alterations, the software will display the name of the user for any change made afterwards. |                |
|    | Data Vault Software provides additional security for the inputted data and this feature, referred to as data vault, ensures that original information is preserved and is not tampered with. Data Vault password cannot be broken.  | 1x3<br>=3 mark |
| 32 | Q. In an accounting software how  |                |
|    | <b>Ans.</b> In accounting software, the pre-defined options are 28 in number, out of these, 15 are primary groups and 13 are sub-groups.  | 1 +            |
|    | • Primary group: It is a basic grouping of the set of sub-groups into major account heads according to  | 1              |
|    | their listing in the balance sheet and profit and loss account.   | + 1            |
|    | • <u>Sub-group</u> : A sub-group is a set of accounts opened in the ledger for recording related transactions.  | -              |

| 33 | Q.(a) State the steps to prepare  |                |

|    | <b>Ans.</b> Following are the steps to prepare a chart:   |  |  |  |
|----|---|--|--|--|
|    |   |  |  |  |
|    | 1. Enter data in a worksheet with proper column and row titles.   |  |  |  |
|    | 2. Create a basic chart using the pattern from the panel available on top of worksheet in chart groups' options.                                    |  |  |  |
|    | 3. Change layout or style of chart  |  |  |  |
|    | • Apply predefined chart layout.  |  |  |  |
|    | • Apply pre-defined chart style.  |  |  |  |
|    | Change the layout of chart element.   |  |  |  |
|    | Change format of chart.   |  |  |  |
|    | 4. Add or remove titles or data labels.   |  |  |  |
|    | Add (Remove) a chart title.   |  |  |  |
|    | Add (Remove) as is title.   |  |  |  |
|    | • Link a title to worksheet cell.   |  |  |  |
|    | Add-remove data labels.   |  |  |  |
|    | 5. Show or hide a legend.   |  |  |  |
|    | 6. Display or hide chart axes or gridlines.   |  |  |  |
|    | Display (hide) primary axes   |  |  |  |
|    | • Display (hide) secondary axes   |  |  |  |
|    | • Display (hide) gridlines  | ½ X 8                                    |  |  |
|    | 7. Move (resize) a chart.   | =4 marks                                 |  |  |
|    | 8. Save a chart.  |  |  |  |
|    | OR  | OR                                       |  |  |
|    | <b>Q.(b) What is meant by internalAns.</b> The <u>internal margin</u> is the distance between the text and the outer border of the element and that |  |  |  |
|    |   |  |  |  |
|    | this distance can be adjusted using the following options:  |  |  |  |
|    |   |  |  |  |
|    | • Left: To specify the distance between the left border of the selected chart element and the text, enter   | +  |  |  |
|    | the desired margin number in the left box.  | 11/2                                     |  |  |
|    | • Right: Similar can be done for right side.  | +  |  |  |
|    | •For Top and Bottom, enter the desired numbers in the respective boxes and the desired distance can be achieved.                                    | 11/2                                     |  |  |
|    |   | =4 marks                                 |  |  |
| 34 | Q. How can conditional formatting   |  |  |  |
|    | Ans. To change a conditional format following can be done:  |  |  |  |
|    | 1. Make sure that appropriate worksheet, table of Pivot table report is in the Show formatting rules for  |  |  |  |
|    | list box.   |  |  |  |
|    | 2. Optionally change the range of cells by clicking 'Collapse Dialog' in the Applies to box to  |  |  |  |
|    | temporarily hide the dialog box, by selecting the new range of cells on the worksheet and then by   |  |  |  |
|    | selecting 'Expand Dialog'.  |  |  |  |
|    | 3. Select the rule and then click 'Edit rule'. The 'Edit formatting Rule' dialog box is displayed.  |  |  |  |
|    | 4. Under 'Select a Rule Type' click 'Format all cells based on their values'.   |  |  |  |
|    | 5. Under 'Edit the Rule Description' in the format style. List box select 3 colour scale.   |  |  |  |
|    | 6. To select a 'Minimum' and 'Maximum Type' do one of the following.  |  |  |  |
|    | • Format lowest and highest values. Select Lowest Value and Highest Value. In this case we do not   |  |  |  |
|    | enter a Minimum and Maximum Value.  |  |  |  |
|    | • Format a number, date, or time Value. Select Number and then enter a Minimum and Maximum  |  |  |  |
|    | Value.  |  |  |  |
|    | • Format a percentage. Select it and enter Minimum and Maximum valid Values from 1 to 100. Do   | <sup>1</sup> / <sub>2</sub> + <b>1</b> + |  |  |
|    | not enter percentage sign.<br>• Format a percentile, Select percentile and enter valid values from 1 to 100 minimum and maximum                     | <sup>1</sup> / <sub>2</sub> +1+1+2       |  |  |
|    | Values.   | =6 marks                                 |  |  |
|    | <ul> <li>Format a formula by selecting Minimum and maximum Values.</li> </ul>   |  |  |  |
|    | romat a formata by servering forminitatin and maximum variaes.  |  |  |  |
